**Languages:** C, HTML, CSS, JavaScript

**Web Technologies:** React.js, Bootstrap, Tailwind CSS, Node.js

**Databases:** MySQL, MongoDB

**Tools & Platforms:** Git, GitHub, VS Code

**Operating Systems:** Windows, Linux

## Academic Projects

### LinkedIn Clone (MERN Stack)

Developed a full-stack social networking platform using MongoDB, Express.js, React.js, and Node.js. Implemented user authentication, real-time feed, posts, likes, and comments, along with profile management and follow/unfollow functionality. Integrated Cloudinary for media uploads and Tailwind CSS for a modern, responsive UI to replicate the LinkedIn experience.

### Amazon Clone (React & Tailwind CSS)

Built an Amazon-inspired e-commerce frontend using React, HTML, and Tailwind CSS. Designed reusable components for product cards, navigation bar, and checkout flow. Optimized layout responsiveness and applied Tailwind utilities for consistent design across devices.

### MERN E-Learning Platform

Developed a full-stack e-learning platform using MongoDB, Express.js, React.js, and Node.js. Implemented user authentication with JWT, course creation and enrollment features, and role-based dashboards for instructors and students. Integrated Cloudinary for media storage and Tailwind CSS for a responsive, modern UI to enhance the online learning experience.

## Certifications

- Certified ReactJS course from UDEMY by certified corporate Trainer.
- Certified JavaScript course from UDEMY by certified corporate Trainer.
- Certified HTML, CSS course from UDEMY by certified corporate Trainer.
